

As a resident of the Dayton community K-LOVE plays a vital role in bringing good christian music to our area. It is safe for my children to listen to. If K-LOVE would be replaced by a LPFM it would be a loss to the community. There are no other stations with the quality of K-LOVE that measure up to my standards. I support K-LOVE financially, but do not have the same desire for other stations. It serves the public interest well by providing sound christian music without commercials and provides information regarding family oriented activities. Please preserve the right to have K-LOVE remain on the air.
